The council reserve the right to remove, without notice, from any grave, flowers, plants or wreaths that in its opinion have become unsightly and to dispose of the same in such a manner as deemed fit.

Internments

Interments may only take place in accordance with these regulations between the hours as agreed by West Halton and Coleby Parish Council

The cemetery will be filled one row at a time, starting in the top left corner and moving across the area left to right, as viewed eastwards, from Coleby Road.

An area of the cemetery at the front left hand side, as viewed eastwards, from Coleby Road will be set aside specifically for cremation internments.

No interments will be normally permitted on a Sunday, Good Friday, Easter Monday, Christmas Day, Boxing Day, New Year's Day, or any other public holiday.

The time appointed for an interment will relate to when that funeral cortege is to arrive at the graveside where the interment is to take place. The funeral director, or person responsible for the funeral arriving after the appointed time, must act under the direction of West Halton and Coleby Parish Council or their representative, as to when the funeral service may proceed.

Prior telephone booking is required for every interment and remains provisional until the Notice of Interment has been received and checked by West Halton and Coleby Parish Council.

A Notice of Interment will not be accepted where there is an unknown grave owner, unless deemed to be a new Exclusive Right of Burial.

The Notice of Interment form and Disposal Certificate must be delivered to West Halton and Coleby Parish Council so as to allow a minimum of 3 clear working days prior the date of interment. The council will accept no responsibility whatsoever for verbal arrangements where such arrangements have not been confirmed in writing on the prescribed form(s).

The Notice of Interment must be completed in full and contain details of the deceased; the proposed interment; the grave to be used, the coffin, and the signature of the owner of the Exclusive Right of Burial or the Applicant for Exclusive Right of Burial for a new grave.

The council will not accept responsibility for consequences arising from the loss or delay of any such notice, order or any other document sent by post, nor for the accuracy of the details contained in The Notice of Interment.

Traditional graves are only permitted in designated areas of the cemetery

WEST HALTON AND COLEBY CEMETERY REGULATIONS Rev A August 2025

West Halton and Coleby Parish Council reserve the right to waive some of the regulations listed within this document in cases of emergency, certified by a medical authority acceptable to the council as being in the interest of public health.

The person arranging the interment shall be responsible for any attendance of the Minister of Religion, to officiate at the burial service, and for the payment of any fee to which the Minister is entitled.

Any person procuring an interment without production of such certificate or order will be required to make a written declaration on the prescribed form in accordance with Section 1(1) of the Births and Deaths Registration Act 1926. The prescribed form is the Certificate of no liability to Register, which is obtained from the Register Office

In the case of interment of cremated remains, a certificate for burial purposes issued by the cremation authority will be required before an interment takes place.

In the case of Foetuses, the Medical Practitioner's Confirmation of Delivery of a Non-Viable Foetus will be required.

If a coffin is not used for interment, the body must be enclosed in a shroud or winding sheet (the body is to be totally wrapped in this) and must be discreetly marked in such a way as to identify the deceased. Underneath will need to be incorporated, a wooden board to provide rigidity for handling purposes. An 'outer shell' may be needed if the wrapped body may be visible to members of the public.

The person responsible for arranging the funeral must arrange for the excavation and backfilling of the grave. The grave digger must not place spoil on adjacent used graves, nor under hedgerows, without prior consent of West Halton and Coleby Parish Council and/or the grave owner.

No excess spoil is to be left on the cemetery grounds after the grave is backfilled. The grave should be dug and refilled on the same day as the interment. Where a grave needs to be dug prior to this, it should only be for 1 day and must be securely covered at all times when unattended. The grave digger shall prevent damage to grassed areas and repair any damage caused

After interment, no body or cremated remains may be removed from a grave without the production of the licence for exhumation required by law. The original documents will be required for this purpose.

Ceremonies of a special nature are subject to the approval of West Halton and Coleby Parish Council.

In the case of the re-opening of a private grave where the written consent of the legal owner of the burial rights is required, the council will require to be indemnified against any action arising as a result of permitting the re-opening in such circumstances as the Deed of Grant of Exclusive Right of Burial being said to be lost or the death of the owner of the Deed of Grant of Exclusive Right of Burial. West Halton and Coleby Parish Council should be contacted for a Notice of Internment form. This form must be completed and returned to West Halton and Coleby Parish Council Clerk prior to any interment taking place.

Following an interment, we will provide one temporary grave marker, which will be removed once a permanent memorial has been fitted or if the temporary marker should become excessively weathered through age

Burial plot reservations

Residents may reserve a burial or cremation plot. A resident is defined as someone who is resident in the Parish of West Halton and Coleby at the time of death, or who has left the parish no more than 10 years previously to go into long term care.

A reservation may be made in the current row available for a fee. The fees payable are available upon request from the Parish Clerk, any West Halton and Coleby Parish Councillor and are displayed on the Parish Council Web site. Different charges apply for non-residents of West Halton and Coleby Parish. These charges are displayed on West Halton and Coleby Parish Council scale of charges

Exclusive rights of Burial

When you buy a grave at our cemetery in West Halton and Coleby cemetery what you are actually buying, is the Exclusive Right of burial for a specific: 50 years for a coffin or casket grave and cremated remains grave. You are not buying the grave freehold nor the grave space.

The ownership of the grave and cemetery land remains with West Halton and Coleby Parish Council. Exclusive Rights of Burial will be issued to the person or persons stated on our interment form.

Ownership of the Exclusive Right of Burial is very important. Ownership can be transferred either during the owner's lifetime or after their death.

The council's records, contain the details of the registered grave owner, and as such, it is important that grave owners keep safe their Deed of Grant. This is the document which is issued when the grave is first purchased and should be produced for each burial. Possession of the Deed does not in itself signify ownership of the Exclusive Right.

Exclusive Rights of Burial can be purchased in respect of available grave space, in accordance with these regulations and the scale of fees and charges applicable to such purchase at the time.

No person may hold, the Exclusive Right of Burial to more than one unused grave, and the holder must be over the age of 18 years.

All graves will normally be allocated in strict rotation within each section. New sections of graves will not commence until a minimum of 80% of the existing allocation for graves has been subscribed to. Plans showing the grave spaces available are kept with West Halton and Coleby Parish Council, where they may be seen upon request

Whilst every effort will be made to achieve the full number of interments in a grave, the council cannot be held responsible if this cannot be achieved due to factors outside their control (e.g. ground conditions; weather).

A grant of Exclusive Right of Burial confers no other right, (e.g. right to erect a memorial; ownership of land), other than that of burial and each applicant for Exclusive Right of Burial must confirm receipt, in writing, of the Deed of Grant.

All grants of Exclusive Right of Burial will be made for a period of 50 years. The EROB can be extended in increments of 5 years through payment of a fee applicable at the time the request is made.

At the expiration of that period, the purchaser, and his/her heir or successors, may have the option to renew the Exclusive Right of Burial, subject to such restrictions and regulations as may be in force at that time. Application should be made for renewal of the Exclusive Right of Burial in the three months before the expiry of the previous grant.

Where the period of grant of Exclusive Right of Burial has elapsed, and no notification of an intention to renew has been received from the person who holds the Exclusive Right of Burial or his/her successors, the council may grant a renewed Right of Burial to any other person, but before doing so, where possible, will attempt to notify the previous owner of the right of burial, or his/her heir or successor (if known) and give the option of renewal.

Transferring ownership of the Exclusive Right of Burial

An Exclusive Right of Burial forms part of a deceased's estate, and as such a formal process needs to take place in order for the Exclusive Right of Burial to be transferred to the rightful heir.

Any transfer of ownership of Exclusive Right of Burial will be subject to the production of satisfactory evidence and title and the approval of the council. Such transfer will be registered in the records of the cemetery and the Deed of Grant of Exclusive Right of Burial must be produced for endorsement by West Halton and Coleby Parish Council and the appropriate transfer fee as per West Halton and Coleby Parish Council published fees and charges.

In the following circumstances, transfer of ownership will be required:

- The registered owner decides to assign the grave to someone else
- An application is made for a burial in the grave, but the registered owner is previously deceased
- An application to place a memorial/additional inscription on the grave is made, but the registered owner is previously deceased
- If the registered owner has recently died. This makes future arrangements simpler if there is a living registered owner.

Guidance on Transfer of Grave Ownership

The council must obey by the law relating to ownership of graves and burials.

When considering transferring ownership of a grave, it is important to be aware that it is against the law to open a grave for burial, including a burial of cremated remains or to place cremated remains upon the surface of the grave, without the written permission of the registered owner, unless the burial is for the grave owner.

Where the owner has been buried, then without exception, a new owner must be first registered to re-open a grave for burial, or to place a memorial, to apply for an additional inscription upon a memorial, or to refurbish the memorial.

The grave owner can assign the Exclusive Right of Burial during their lifetime, to another individual on completion of an Assignment of Exclusive Right of Burial form.

The owner can surrender the Exclusive Right of Burial if the grave has not been used for burial. The surrender value being the original purchase price on the specified Deed of Grant, less any elapsed years and administration costs. Applications to be made in writing to West Halton and Coleby Parish Council.

The procedure for establishing grave ownership when the original owner has died, depends on whether there is a will.

Until ownership has been determined, the council is not in a position to allow a burial or memorial to be erected.

Grave site memorials

The grieving process and related formal and informal rituals through which we mourn the passing of a loved one is important for the health and well-being of the bereaved, and at West Halton and Coleby Parish Council we understand the importance of memorials.

Whilst we completely understand the desire to remember loved ones, fencing and decoration(s) outside those permitted within our rules and regulations make it very difficult for our grounds team to effectively maintain and care for the cemetery. It can also cause upset and distress to other families with loved ones in the same area.

Only accredited memorial fixers are permitted to erect memorials

The council has overall responsibility for the health and safety of all visitors to our cemetery. This includes testing the stability of the headstone and in certain circumstances it will be necessary to lay the headstone down or alternatively make safe with a support.

We will endeavour to contact you. However, if your contact details are out of date a sign will be left by the memorial.

In all cases, an application for a memorial must be made by the holder of the Exclusive Right of Burial, and where the owner is deceased, the transfer of ownership must have taken place and the Right held by a 'living' owner(s)

All memorials must be installed in accordance with the current NAMM Code of Working Practice and BS8415

Masons undertaking the installation of memorials must be appropriately qualified and insured. This can be evidenced individually or through their registration with a nationally recognized memorial fixers accreditation scheme.

Rules apply as to the type, size, style, all memorial designs, and inscriptions. Applications must be approved prior to installation.

Application for approval to place any memorial in the cemetery, alter or add to any inscription, or replace, add to, or remove from the cemetery any memorial, must be submitted to West Halton and Coleby Parish Council on the appropriate Application Form (available from West Halton and Coleby Parish Council).

Prior approval is required before any work is undertaken. Any approval is issued on the understanding that the work undertaken will fully comply with the details provided on the Permit Application Form and the requirements of these Regulations. Any work that does not comply will not be permitted to remain in the cemeteries and may be removed without notice - the cost of this will be charged to the person who carried out the unauthorised work.

A permit and prior approval are also required for the professional cleaning, up righting, levelling and the repair of an existing memorial and the refurbishing of inscriptions. An approval is required for repair of existing lettering and/or inscriptions.

A memorial may only be erected on a grave space within the cemetery in accordance with these Regulations with the approval of West Halton and Coleby Parish Council and upon payment of the appropriate fee. The Right to erect a memorial will be for the unexpired portion of the Exclusive Right of Burial.

Memorials will not be permitted to be installed until at least 6 months after the date of a full interment, or 8 weeks in the case of cremated remains. This allows for settlement of the soil within the grave plot; this should then ensure the stability and longevity of the memorial.

It should be noted that the ground conditions within the cemetery differ, and further settlement of ground may take place; it is your selected stone mason's responsibility to take this into account when fixing memorials.

Headstones shall be placed at the head end of a grave. Inscriptions are only permitted on one side of the headstone and shall face the length of the grave.

Following installation, the Memorial Mason must issue a certificate of compliance to the council, confirming the memorial has been installed in accordance with the current NAMM Code of Working Practice in compliance with BS 8415.

The stability of the memorial is the mason's responsibility; memorials fixed in compliance to the current NAMM Code of Working Practice ensures compliance with BS8415 and confirms the mason has done all possible to meet their responsibility. This applies to new memorials, reinstated or re-levelled memorials, where all fixing components and materials including foundations must comply with current NAMM Code of Working Practice and BS8415 requirements.

Cast in situ foundations are permitted, however, must comply with specifications set out in the NAMM Code of Working Practice. If using this method, details of installation must be provided with the memorial application and approved before any groundwork commences.

A memorial of concrete, Bath or soft Coen stone, pottery, plastic, or fibreglass is not permitted and will be removed and disposed of without notice. The cost of removal and disposal will be charged to the person(s) who erected the memorial.

Any wording and images should be appropriate to the setting being a cemetery in a public place and must be deemed appropriate at the time of application. In matters of propriety, West Halton and Coleby Parish Council decision is final.

Photographic plaques, not exceeding dimensions of 13cms, may be affixed to headstones or bronze plaques only.

The name of the memorial mason, section and grave numbers must be incised, or incised and inlaid, to match the main inscription, in figures up to 20mm high on the top rear of the memorial. Only the memorial masons name, section, and grave number shall be permitted on the rear face of the memorial.

No hewing or dressing of stone, other than cutting of an inscription, will be permitted in the cemetery

All materials and equipment shall be conveyed in the cemetery in such a manner as to prevent risk of injury, damage to walks, paths, roads or turfed areas and all soil or waste material shall be removed from the cemetery immediately in a professional manner. Protective mats, boards, or canvass shall be used to minimise damage to lawned areas.

West Halton and Coleby Parish Council must be informed by contacting the Clerk or member of the Parish Council of the removal of any memorial from cemeteries.

The removal and re-erection of a memorial to facilitate the re-opening of a private grave or vault, or to level such a grave or vault, shall be at the expense of the owner of the Exclusive Right of Burial. Any person removing a memorial to permit further interment shall either safely remove the memorial from the cemeteries after informing West Halton and Coleby Parish Council or place it in a position indicated by West Halton and Coleby Parish Council

Any memorial removed from a grave to facilitate an interment shall be replaced as soon as possible after the first anniversary of the last interment, if not before.

Any memorial erected in the cemetery remains there at the sole risk of and must be kept in good state of repair by the owner of the Exclusive Right of Burial at his/her expense. The council reserves the right to remove, and dispose of without notice, any memorial not kept in a good state of repair and considered likely to present a health and safety risk. (Local Authorities' Cemeteries Order 1977).

The council reserves the right to exclude or remove and dispose of without notice, from the cemetery any memorial not installed in accordance with these regulations, or which is considered unsafe.

The council reserves the right to remove, without notice, any memorial and take any precautions necessary to safeguard the council's employees or contractors when digging graves adjacent to any memorial. Note: All possible precautions will be taken to minimise the risk of damage occurring to memorials being disturbed in order to facilitate this necessity.

All personnel employed on behalf of the owner of the Exclusive Right of Burial to erect any memorial or to perform work on existing vault, memorial etc. shall:

- Ensure the grave is left in a tidy condition, remove off site, all waste and unwanted material, and make good any damage or injury whatsoever occasioned in the process of the work.
- Provide their own tools and equipment which must be in a serviceable condition.
